OBJECTIVE

Gained hands-on full-stack development experience during an intensive internship, honing skills in React Native, Node.js, MongoDB, and Firebase. Developed CallVerse, a privacy-focused chat application, and SCS, an e-commerce platform for IT companies and universities.

EDUCATION

Master of Computer Application, Gujarat Technological University Expected 2025
Currently pursuing a Master's in Computer Applications with a focus on app development. Passionate and eager to grow in the field of software development..

Bachelor of Computer Application, veer narmad south gujarat university 2020 - 2023
Average 6.5 CGPA throughout the course. I have worked on different projects during the time of my course and have gained decent practical experience with web development and cross-platform App development

SKILLS

HTML, CSS, JavaScript, React.js, React Native, Node.js, MongoDB, Rest Api's

EXPERIENCE

Internship May 2023 - July 2023
Blockchaindev *Surat, Gujarat*

- Completed an intensive internship focused on React Native, concurrently deepening expertise in Node.js, MongoDB, and Firebase.
- Applied acquired knowledge to contribute significantly to project development.

Junior React Native Developer Aug 2023 - Jan 2024
Blockchaindev *Surat, Gujarat*

- Actively engaged in the development of a social media application.
- Collaborated with a team to design, implement, and maintain features using React Native CLI and Firebase.
- Contributed innovative solutions to enhance user experience and application performance.
- Adhered to project timelines and objectives.

PROJECTS

CallVerse : Developed CallVerse (Chat App), a chat application using React Native CLI and Firebase. The application features a unique offering where users are provided with random phone numbers for secure communication, prioritizing privacy. The app allows user registration and sign-in using unique identifiers or registered email. It also includes robust search functionality for easy contact discovery and connection. Real-time messaging capabilities were integrated for seamless conversations. Additionally, the app facilitates the sharing of images and GIFs, enhancing the user experience.

SCS : Developed SCS (Sustainable Computer Solution), an e-commerce app designed for IT companies and universities. The app provides a platform for selling, inspecting, repairing, and modifying computer systems, ensuring all systems sold are in excellent working condition. It promotes technology accessibility by reselling systems, thereby contributing to the sustainability and accessibility of new technology.
