OBJECTIVE

A passionate full-stack developer with hands-on experience gained through an intensive internship. Skilled in React Native, Node.js, MongoDB, and Firebase. Developed CallVerse, a privacy-focused chat application. Eager to leverage my skills and grow further in the field of software development.

EDUCATION

Master of Computer Science, Gujarat Technological University Expected 2025
Pursuing a Master's degree in Computer Applications with a focus on app development. Motivated to expand knowledge and contribute to innovative software solutions.

Bachelor of Computer Science, veer narmad south gujarat university 2020 - 2023
Graduated with an average CGPA of 6.5. Gained practical experience through various web and cross-platform app development projects during the course.

SKILLS

HTML, CSS, JavaScript, React.js, React Native, Node.js, MongoDB, REST APIs, Firebase

EXPERIENCE

Junior React Native Developer Aug 2023 - Feb 2024
Blockchaindev *Surat, Gujarat*

- Actively participated in the development of a social media application.
- Collaborated with a team to design, implement, and maintain features using React Native CLI, Firebase, and REST APIs.
- Proposed innovative solutions to enhance user experience and application performance.

Internship May 2023 - July 2023
Blockchaindev *Surat, Gujarat*

- Completed an intensive internship focusing on React Native, while deepening expertise in Node.js, MongoDB, and Firebase.
- Applied acquired knowledge to significantly contribute to ongoing project development.

PROJECTS

CallVerse : Developed a privacy-centric chat application using React Native CLI and Firebase, designed to protect user communication by assigning random phone numbers for secure messaging. The app features user registration and authentication through unique identifiers or email, ensuring easy access while maintaining privacy. Implemented robust search functionality for quick contact discovery and real-time messaging for smooth communication. Additionally, integrated media-sharing capabilities, including images and videos, to enhance user interaction. Overcame challenges related to real-time data synchronization and secure media handling.

MarketChat : Played a pivotal role in the development of MarketChat, a dynamic social media platform focused on community-building and user expression. Led the design and implementation of key features such as friend discovery, page creation, group joining, event management, and user-generated content sharing, including the ability to create, comment on, and share posts. Integrated real-time notifications to drive user engagement and developed a seamless chat system to facilitate continuous communication. Worked closely with UI/UX designers to craft an intuitive and visually appealing interface, ensuring a user-friendly experience.
